

Main Business Activities

Atlas Aerospace, Austria's leading trading and consulting company, has been accompanying its partners – for more than 50 years – in all aspects from strategic development to the organisational-technical implementation of complex defence and security projects.

It has always been the company's ambition to provide both customers and international suppliers with unbureaucratic and rapid assistance in handling their trade procedures and promoting their specific projects.

Our expertise – accumulated and refined over the years – is at your disposal in the following business stages:

- Market Analysis
- Local Representation
- Distribution/Sales
- Project Development
- New Procurement Regulations
- Tender
- Proposal Management
- Purchase Contract
- Project Implementation and Management
- Integrated Logistic Support
- Technical Systems Integration
- After-Sales-Service
- Training
- Product Support
- Documentation

Make use of our premises and our test lab for your meetings and conferences or to prepare your demonstrations.
